### Justice to Mr. Hebart.

Justice to Mr. Hebart.

We know personally that many of the best Democrata in the State have felt that they had cause of
dince in the bitter and persistent assaults made by a
paper chaning to be Mr. Hobart's particular organ in
his city upon the ractional administration, and upon
one goal emporters of the ticket with happen obtational, instead of Douglas Democrats. Its repeated
durs upon Charley Robinson hare justy given offence,
it is deemed to be in the highest degree impolifie, as
well as urjust, to assail, from time to time, a true and
whole-harted Democrat, who stood bo high in the
affections of the party as to command the support of
carry half the delegates in a Democratic State Convention, and whose nomination was defeated only by a
suspitious and untilinely biunder in counting the votes.
The assaults upon the administration are equally in

that could be adopted. ould be adopted, fice to Mr. Robart, and his defense from the in-tion of his friends, calls for a disclaimer on these matters by some one authorized to make it. We then for say that there astricks upon the Nutional Demanday, and upon Go! Robuson do not meet with Miconart's approval—on the contrary, they are again at his views of jastice and of policy.

So says the National of yesterday. But something more than the assertion of the National is required to satisfy the public on recognized "organ" of the party, and the esministration, or indulge in "slurs" upon Col. Rossnson, if, in so doing, it did not reflect the views of Mr. HORART and of the leaders of the party, hereabouts. We shall believe what the National says on this subject, when Mr. Hobart himself "disclaims" the articles in the News. Will he do so?

#### The Great Elbel Case.

The telegraphic contradiction of the report that Mr. Buchanan was about to prosecute John W. Forney, editor of the Philadelphia Press, for libel, in consequence of a charge in that paper that he was responsible for BROD-ERICE's death, has brought out the following from FORNEY himself.

We desire to state, upon the best authority, that during his late visit to Lancaster the President was free and frequent in the declaration of his determination that, on his return to Washingtou.he would consult Judge Black about prosecuting the editor of the Press for a libel in consequence of that article. We have a libel in consequence of that article. have now in our possession letters from prominent Democrats in Lancaster, written while the President was sojourning there, particularly.

THE HARPER'S FERRY INSURRECTION,-Speaking of this mad attempt of a handful of fanatics to overturn the government, the National of yesterday says:

The whole affair, the riot, violence and blood, and the death of the brave men upon both sides are the true fruits of Win. H. Seward's "freepressible conflict," and the ripened results of black republican tenchings. There is nothing in "Republican teachings," or in the views of Wm. H. SEWARD, which in any way countenances, or incites to, such proceedings as those at Harper's Ferry. He was nearly 100 years old, and recollected the first mining done in that country, in 1771, when he was about Ten years old. In the early part of the present century he had a terrible encounter with a black bear, near Ontonagon, the marks of bany (Green Co.) Times. which he carried to his grave. By their fruit we shall know them.

Opinions Worth Having .-- We have had the satisfaction of reading, in a letter of Hon. EDWARD EVERETT's own handwriting. dated Boston, Oct. 1st. '59 the following mention of Lawrence University, at Appleton, in this State:

"Lawrence University is very favorably on all sides, on a noble river, and centrally situated in reference to a country which is rapidly settling, fertile, salubrious, and rich in mineral wealth.

"The institution, if adequately endowed, cannot fail to become, by the Divine Blessing, a radiating point of intellectual and religious light to unborn millions, who will, in the have reason to believe it has already educated for "Misther Honant." a considerable number of young men to future usefalness.

" Having formerly been an owner of land am so no longer, and that I have no personal about two-thirds of which is covered by ininterest in that quarter."

Hon. Amos A. Lawrence, of Beston, also writes to a friend, in reply to inquiries made concerning Lawrence University, as follows.

" In reply to your note I will say that the College at Appleton is a vigorous institution, and a widely useful one. There can be no doubt as to its permanency."

THE INSURRECTION AT HARPER'S FERRY over. The instigator and prime mover in the affair, was one "Ossawattomie Brown" formerly of Kausas. In the troubles in that last evening will not occur from the immense Territory, one of his sons was murdered at | jam. his side by the Missouri rufflans, his home devastated, and the accumulations of a lifetime swept away, which rendered the old man a monomaniac. He became a religious fanatic, and believed he was especially commissioned from Heaven to rid the earth of slavery. In this delusion he enlisted one of his sons and eighteen or twenty others, as it appears, who seized the Arsenal at Hurper's Ferry, bid defiance to the Government, and shot down indiscriminately all who opposed them, citizens as well as soldiers.

Upon the persons of the dead fanaties, were found commissions as officers of the Provisional Government, and signed by "A. W. Brown, Commander-in Chief of the Provisional Government of the U. S. 172

CHEAPER TO CLUBS! We propose to furnish THE WEEKLY SENTINEL from the 12th inst. to the 15th of November, (or two months,) on the following very liberal terms: One Copy for.....

We hope our friends throughout the State will take will not cost much. Let every true Republican take well supplied with The Sentings for the Campaign.

JERMAIN & BRIGHTMAN,

ever, from injuring Gov. RANDALL, these pointedly condemns this mode of warfare: We regret the publication of the above, because it is untrue. There are political reasons enough way Gov. Radiali should be defeated; and we protest now, as we did two years ago, against such scandidous libels upon his private character. They do no good anywhere, and in this county, where their faisht is known, if persisted in, we fear may work Mr. Hobart more injury than benefit. For thus refusing to bear false witness

against a neighbor, the Waukesha Democrat is read out of the party by the News and Pa-

Lessons of the Late Elections. The New York Herald, which is just now on the Democratic track, and has been esp-cially abusive of the Republican party,

cannot close its eyes to the lessons so plainly taught by the recent elections. Summing up the several results, the Herald says: First.—That the Democratic party of the Northern States is in that inclanding condition of a sick man which affords no symptom of convalescence. Second—That the late great American, or third par-ty of the North has disappeared and ceased to exist; and

and
Third—That henceforward to the close of the Presl
dential campaign of 1500, there will be only two purties in the North—the Republican and the Democratic

The Herald therefore comes very naturally to the conclusion that, "from the general the audience. drift of the tide of these October elections, the dullest politician cannot fail to perceive or FARR. He, too, was received with enthuthat an opposition President may be elected siasm. He is evidently a popular speaker, in 1869 without the electoral vote of a solita- | and one calculated to take with the multiry Southern State."

Letter from a Delegata. For the Sentinel. Mr. Editor:-Perhaps there is nothing point. I saw in the SENTINEL a short time ince, an extract from the News, which you rightly characterized as an invention. That extract asserts that Gov. RANDALL is a Knowhim, and that is that he is a high-minded, noble-hearted man, fit to adorn any station the people may place him in; he has only to whide his time to receive the reward his high talents merit. We can assure the News that ts charge of Know-Nothingism will not have

the desired effect.

in the idea that many of the Wisconsin foreigners will return to the Democratic fold, but they need not flatter themselves with this idea. We have heard of dogs returning to their vomit and sows to their wallowing in the mire, but we have yet to learn of an intelligent foreigner returning to the Democratic party; it would indicate an approximation to total depravity that few men attain. The foreigners come to this country without bias or prejudice and judge for themselves. They see on one side a party apparently having no other object in view than the strength. ening and extending of slavery, with that o'ject in view they have repealed the Misgouri Compromise, committed the monstrous outrages on Free State men in Kansas and re-open the African slave trade; nor will the Northern Democracy murmur, they have so long been the pliant tools of the slaveocracy, ure the South may wish to bring forward .-They may get up platforms to suit every degree of latitude but they will all plant themselves on the Southern platform at last. The News and Chicago Times underrates the sagacity of foreigners if it thinks they cannot see to where the D-mocratic party is drifting. It does not take much shrewdness to see that a party that tramples on the rights of one class will, if it suits their purpose, trample upon the rights of others. Southern men speak now with contempt of the laboring classes at the North, calling them greasy mechanics, mudsills of society, &c., and we see nothing said by the Democrats of the North against anything of this kind, but we do see them ready to fall in with the doctrine of the Cass-LeClerc letter, making an odious distinction between nastive and naturalized citizens and

What in ion expressed by R-publicaus in regard to the name of common sense, then, had he been using them for, nearly an hour? He then accused the Republicans of being disunionists, and bent on dissolving the Union For proof, witness their anti-Slavery principles, and their efforts to prevent the extension of slavery! And he had just been arguing for half an hour, to prove that the Democratic party at the North was just as much opposed to slavery and its extension, as the

Republicans! But I am making my sketch much longer than I intended. Suffice it to say that Mr. the Cleveland, Columbus and Cincinnati, Hobert's popular sovereignty disquisition Cleveland and Toledo, and Cleveland and entirely ignored the principles of the party, as held and declared by the present Administration. His speech was, though at times eloquent and flowery, disconnected, unsatisfactory and unconvincing.

Leaving the subject of National politics. Mr. Honart came down to State matters .-He went over the usual ground—read the agreement and lever over the usual ground—read the growth as farmished him by Secretary Jones, showing the expenses of the government and limited. Gov. RANDALL, in his half hour's close, demolished the fair creation of Squatter that they will not dare to rebel at any meas. Sovereignty built up by Mr. Hobart, by a few well directed blows of common sense and sarcasm. His labored attempt to prove extravagance, wasteful expenditure and misrule upon Gov. RANDALL showed himself posted upon State affairs, and the ease and confidence with which he showed up the entire financial condition of the State,

And, as a Conference, we must do much, in determining these awful questions, so far, at least, as they relate to the interests of this rapidly growing Commonwealth. The subject of slavery, its extension, sion, protection and perpetration, was fully discussed. It was shown that the present Democratic party is the slavery extension party, and that the Republican party is just as certainly and efficiently the party of liberty, and the only party to which the country can look for the prevention of its extension. He showed from the records that our government was instituted to establish justice, and not extend and perpetrate injustice and wrong as it is practiced in the institution of slavery—to promote the general welfare and not the welfare of a few slaveholders only to secure the Messagns of liberty to its founders and their posterity forever. Such were the objects of the founders of this government, in the modern Democracy would turn the entire Federal Government into a slaver-making and slave-protecting machine.

From the carefully prepared report of the Agent, presented at the annual meeting of the Joint Board of Trustees and visitors, at their last session, it appears that the Fixed Capital, including College Building, Grounds, Llorany, Apparatus, Cabinet, Fur-nitury and Musical Instruments, is now esti-

The further and more liberal endowment of the University must be effected, or we

of the University must be effected or we must fail in meeting the high and reasonable expectations of its patrons and friends. Some liberal friends of education in the East, have already pledged about \$15,000 on condition that the sum of \$30,000 can be raised for this object; and there are some reasonable hopes that other wealthy individuals, feeling an interest in Western Education, will pledge not only the \$14,000 remaining unsecured, but will swell the amount to even more than the sum above enertioned. It is our opinion that the sum of \$50,000 should, and can be raised. The sums already pledyed by our Editorn friends are payable to the order of Rev. Edward Cooke, D. D., the recent Presi-

dent of Lawrence University, and now a member of the Board of Trustees.\*

The Joint Board of Trustees and Visitors at their last annual meeting, as well as at a subsequent meeting held early in the Autumn, failed to elect a President to take the place so ally and faithfully filled by Rev. Dr. Cooke. Prof. Mason is now the acting President, and the several departments of the University are proceeding as usual. MILWAUERE,

BY R. JOHNSON.

Speak to that youth, the timely warring, May save him many years of pulm. Though be appears ab crune's coming, One gentle word may him restrain. Check that young tuan, but do it mildly, Nor pass him by with cool neglect, For though he seems to rush on wildly, Thy voice may wake his self-respect. Speak kindly, sister, he's thy brother, Throw round tove's letters when le'd roam, Thy voice and smile, so like none other, May win the wayward to his home.

Frown not, but smile where'er you meet him, for sorrow's cloud may dim his day, sweet words of kindness, when you greet him, May cheer him on life's gloomy way.

Stop that young man, thy friendship profer, Lat confidence his feet restrain; Should he, in hater, reject thy offer, Forsake him not, but try again.

Speak to that youth with prospects blighted, And soul debased by hearded store, Thou, parent, at the cause he's slighted, and shouldst thou turn him from thy door?

Speak to that buy, ere sloth has given Its giant power to chain the soat, Or fasbion folly's car has driven, depend the power of self-control.

Teach him respect for good behavior, Show him how vice engenders strike, And, most of all, make the world's Saviour, A pattern for his future life. Move on, keep trying, never falter, he good in every way you can, For, though you may not wholly alter, You may improve the state of man,

THE SILVER SPOONS.

"Whis first care was to write to his flance, telling her of an enriest business-call to London. As every one imagined it connected with his coming wed ling, no great surprise was evineed, and site never even questioned him on the subject; for which I think she was beyond all praise; but the happy are seldom suspicious. A week passed before his mission was over, and then he hastly bent his steps towards the anxious heart awaiting his tidings. She had particularly begged he would not write.

"When he first saw her, on the night of his return, how thankful did he feel that his news was comparatively good! Her cager look, which he always said was indescribable, he answered with a marmered 'Yes, yes

Any certainty is almost preferable; but the gnawing agony of suspense—words are powerless to describe it, for it is a word-less thing. I remember when I read 'Evangeline' my heart could hardiy bear the weary track of the poor tried soul, and it was a relief to dissolve the wrought feelings in the tears called forth by the words tears called forth by the words-'All was ended now, the hope, and the fear, and the sorrow;
Ali the acbing of heart, the resiless upsatisfied longing. For ah! that was a happy consummation; even though in death, the hearts met at last l ceased to cry then 'Poor Evaugeline!'
'Miss Benson's pale face calmed down into its ordinary expression; she could wait for details, she who had learned the lesson for details, she who had learned the lesson through so many long years. She insisted that Becky should bring tea, and did her atmost to make it pleasant to her friend.—And then he told her all. Difficulties he certainly had had; but through an eminent solicitor, he had communicated with the firm; and they had agreed to accept a stipulated sum, and withhold from prosecution, on condition that the criminal should leave the country. This he assented to and was now on board a vessel bound for Australia.

The propeller Mon-dota took her in tow; but before reaching the harbor the rope parted, and the sea running high, the propeller was obliged to leave her in the bay. The tag T/d, however, went out to the assistance of the unfortunate vessel in the teeth of the wind and waves, and brought her safely into port. She was water-logged, having run mon her anchor when the gale first commenced, and stove a hole in her bottom, but being loaded with

lumber she did not sink. What humber she had on deck THE SCHOONER GERALDINE, of Buffalo, had a hole stove in her stern while coming into our harbor yester-day morning, by coming in contact with a seew in the Straight Cut. She had a small quantity of coul on

board for this port. The Schoosen Sixtus, which went ashere near Raclass in the equinoctial storm, was got off by Cales Har-nisos, and arrived here on Wednesday night with a stends pump working on board. Her hat! has not sue tained much damage, and when repaired she will probably be a good as ever. She will be put on the dry-dock for repairs as soon as room can be made for her. The schooner-rigged scow Nichols, of Kenosha, we believe, came in resterday morning with both top-masts gone, her rudder broken, and otherwise considerably damaged.

Averner Properties Loss.-By a telegraphic des patch from Sarnia it will be seen that the propeller Tray was wrecked in Lake Haron on Taesday night. Out of 22 persons on board, all but S are supposed to have perished.
